

Asian Graphene Forum (AGF - 2017), Singapore

Dear Reader,

VBRI Press is pleased to announce 'Asian Graphene Forum (AGF - 2017), Singapore (www.vbripress.org/asamc/agf) during 11 – 16 March 2017, Singapore. It is a six-day international event organised by the International Association of Advanced Materials (IAAM) with the collaboration of VBRI Press AB Sweden. Forum will be held on the Diamond Princess Cruise Ship cruising from Singapore - Kuala Lumpur (Malaysia) - Penang (Malaysia) - Phuket (Thailand)- Singapore. The aim of the event is to cover the latest technology developments, applications, commercialization progress, end user requirements and challenges of Graphene and related 2D Materials.

The main topics of the forum:

- *Fundamentals of Graphene and 2D materials*
- *Growth, synthesis and integration methods*
- *Composites – characterization and properties*
- *Large scale production and characterization*
- *Applications in the*
 - *Electronics/ flexible electronics*
 - *Energy: photovoltaics, energy storage, fuel cells & hydrogen storage*
 - *Photonics, spintronics and optoelectronics*
 - *Biomedical, sensors and environmental research*
- *New technologies, commercialization and market*

11-16 MARCH 2017

PRINCESS CRUISES, SINGAPORE

For more information please visit www.vbripress.org/asamc/agf

Venue of Asian Graphene Forum (AGF - 2017), Singapore

The event will provide opportunities for the delegates to exchange their face-to-face novel ideas and experiences with the international experts during the plenary and invited talks, oral presentations and poster sessions. We will also set up following four parallel symposiums with the AGF 2017:

- *Asian Advanced Materials Congress*
- *Biosensor and Bioelectronic Materials*
- *Smart Energy Technologies*

- *World Technology Forum*

The program includes keynote forum, panel discussion and manufacturing projects negotiation.

Important dates:

Deadline of abstract submission: **22 August 2016**

Confirmation of abstract acceptance: **26 August 2016**

Registration closed: **30 August 2016**

We trust that *Advanced Materials Letters* offers an international interactive platform for both industrial and academic researchers, professors and students active in the fields of applied or fundamental materials science related to biological, chemical, earth, atmosphere, ocean and planetary, engineering, mathematical, medical and physical sciences. The journal is expected to become popular accompanied with a high impact factor and as a general chair, may welcome you as active part of the AGF. Your opinions and suggestions are greatly valued for the success of this event.

You may follow this event on
