Advanced Materials Innovations

Dear
Readers,

Advanced Materials Innovations is a three-day international event organised by the International Association of Advanced Materials and VBRI Sverige AB during 22 - 24 August 2017, Stockholm, Sweden.

The market for materials is changing from raw materials supply to innovation procurement concepts. The modern world creates a dynamic and fast moving market. The challenge in making business from advanced materials is a new avenue for researchers, academia as well as for societal and political stakeholders.

In order to further understand the international situation, all interested players in the field of innovations are invited to share experience and exchange of international practices and knowledges. This will be implemented by special a round table session which is open for participation. The participants will meet at an open area with thematic round table topics. At the end of the event, each thematic area will summarize to all participants.

ADVANCED MATERIALS INNOVATIONS

Match-Making and Round-table Discussion: Experiences and Practices of R&D Transfer in Advanced Materials

22 - 24 August 2017, Stockholm, Sweden

Fig. 1. Leaflet of Advanced Materials Innovations.

Organizers

- Emplnno - Empowering Innovation (Interreg Baltic Sea Region Programme 2014-2020)
- Tomas Cernevicius, Kaunas Science and Technology Park
- Dace Grinberga, Riga Planning Region
- Nils Gabrielsson, Regional council of Östergötland / Region Östergötland
- Carina Åkerberg, Gävleborg County Council / Region Gävleborg

Special attractions

- Excellent speakers from industry and academia. It is a series of cruise event where 15+ international symposiums are hosted in the single vessel. We explore interdisciplinary connections with areas of advanced materials.
- There is chance to visit Nobel museum and two Scandinavian capital cities.
- Access to all parallel events in a single registration fee.

- The Advanced Materials Laureate, European Advanced Materials Award, IAAM Medal, IAAM Scientist and Young Scientist awards will be privileged by the International Association of Advanced Materials.
- Amazing experience of cruise hospitality and visit two capital cities of Scandinavia, not to mention the beautiful views you will experience of the Stockholm archipelago on sunny summer days and beautiful long and light evenings.

Highlights of activities

- Excellent Speakers
- Interdisciplinary Research Presentations
- Global Networking
- Strong Attendance from Industry and Academia
- Parallel Symposiums
- Industry Exhibition
- Training Courses
- IAAM Awards and Felicitation
- Amazing Experience of Cruise Hospitality
- Explore two of the Scandinavian Capitals
- Global Market
- Product Lunches
